

Greetings from Minneapolis as we kick off the 88th annual National Truck Driving Championships, aka the 'Super Bowl of Safety.'

Yesterday, XPO's 37 drivers arrived from all over the country, and they're excited to compete - and win!

NTDC competitors are made up of the winners from 50 State Trucking Associations' Truck Driving Championships - all of whom must be accident-free for at least one year prior to the competition.

Today, competitors get their first look at the course and equipment and will take the written exam. Tomorrow and Friday will bring the pre-trip inspection test and skills test. Preparation for the competition takes hours of extra driving practice, study and training, above and beyond the requirements of their job.

Our drivers will be put through their paces, but they're ready for it. Let's go, XPO!
