

### XPO has the capacity, terminals and drivers in place to pick up and deliver your freight damage-free and on time.

As the second-largest less-than-truckload provider in North America, we stand behind our reputation for best-in-class reliability and on-time LTL services.

Our coverage extends to every U.S. state, including Alaska and Hawaii, and over 99% of all U.S. postal codes. For customers with cross-border requirements, we have strong networks in place for freight movements to and from Mexico, Puerto Rico and Canada, and we offer LCL/LTL services for overseas shipments, including Asia, for a seamless solution.

In Europe, our services cover 90% of all GDP-producing regions.

#### Ranked #1 for on-time and damage-free performance.

- Fastest transit times\*
- More than 75,000 next-day and 2-day lanes
- All sizes and types of freight accepted

\* Excludes priority service and expedited shipments

## Less-than-Truckload solutions and services

### XPO's LTL Network in North America

#### ALASKA, HAWAII AND PUERTO RICO

XPO has numerous seaport locations to move LTL freight via ship—you'll have a single point of contact for the entire process. First, drayage is arranged as necessary, then cargo is loaded into secure marine containers for ocean transport. At the destination port, shipments are removed from the containers and delivered to the consignee.

#### MEXICO

XPO has the people and infrastructure in place on both sides of the border to ensure door-to-door service from origin to destination, in and out of Mexico. Our dedicated customs resource team tracks each cross-border load during transit, with 24-hour monitoring to stay on top of any potential delays.

#### CANADA

XPO has nine different crossing points at the U.S.-Canadian border. Cross-border movements are made even more seamless because your freight is moving on a single network.

#### OVERSEAS

Our efficient LTL/LCL global services include freight movements to and from Europe and Asia. XPO's global footprint and freight forwarding capabilities, combined with LTL leadership in North America and Western Europe, are important resources for companies with business interests outside of North America or with plans to expand globally in the future.

We are always happy to advise you on the optimal mode—or combination of modes—for your shipment and arrange it accordingly.

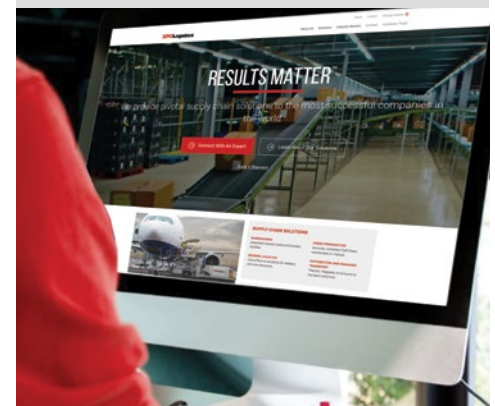

**ALL THE SUPPORT YOU NEED** through our service team and Help Center.

**LESS-THAN-TRUCKLOAD:** 2211 Old Earhart Road, Suite 100, Ann Arbor, MI 48105-2751
